The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The second part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The third part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The fourth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The fifth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The sixth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The seventh part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The eighth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The ninth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The tenth part of the paper is devoted to a detailed discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science.

Dec 11/91 - To M. J. ...

Dear Sir,

I have the pleasure to inform you that

I have received your letter of the 10th

inst. in relation to the

above mentioned matter.

I am sorry to hear that

you have been unable to

obtain the necessary information.

I am sure that you will be able to

obtain the same in due time.

Edgar very large man 5ft 11"
255-260 lbs

(P274) Andrew Waymire b. 1810

All his sons enlisted in Union Army, ^{also} step sons
left Indiana about 1860. In 1878 his sons
John & Harry went overland to Nebr. bought
railroad land & built sod houses.

In 1867 he and his wife Mary and two step sons
Henry and George & Foley left Illinois going to Beatrice,
Nebr. Further west in Salina Co. they located, and
endured the hardships of pioneer life.

In 1874, Nebr. was visited by grasshoppers.
Andrew deeded two acres for church and cemetery.
Here in this Waymire Cemetery, Andrew and his
2nd & 3rd wife are buried as are many others of the
family. After the death of the 3rd wife Andrew made
his home with his son, Harry.

Annie Eliza Buck Waymire says of him

"None knew him but to love him, and no one
ever doubted his professed Christianity.

Always jolly and had a sunshine face"
